

The new Relux website is looking for featured projects!

We are working on our new website that enables our users to present their high end projects planned with our software. It could be any kind of application; from retail to urban lighting, residential to street lighting. Each calendar quarter a selected project will be featured on the start page of our company which is visited frequently from users worldwide.

Do you have a project that could be published on our website?

Here are the guidelines:

File format: .png (web export)

Resolution: 1400x640px

Required information:

1. Project name and location
2. Lighting company
3. Lighting designer (optional)
4. Project description (min. 700 characters and max. 1000 characters incl. spacing)
5. Company website

All project photos and description should be sent to:

Ms. Carmen Finelli
c.finelli@relux.com

We are looking forward to receiving your projects!
